

TRICARE Users Consumer Watch

North ♦ Quarter 2 FY 2013

DEFENSE HEALTH COST ASSESSMENT & PROGRAM EVALUATION

Source: Health Care Survey of DoD Beneficiaries

Inside Consumer Watch

TRICARE Consumer Watch is a brief summary of what TRICARE users in your region say about their healthcare. Data are taken from the Health Care Survey of DoD Beneficiaries (HCSDB). The HCSDB includes questions from the Consumer Assessment of Healthcare Providers and Systems (CAHPS), a survey designed to help consumers choose among health plans.

Rates are compared with averages taken from the 2011 National CAHPS Benchmarking Database (NCBD), which contains results from surveys given to beneficiaries by civilian health plans. Rates differing significantly from the benchmark are bolded and shown in red.

Figures 1 through 4 show the proportion of Prime enrollees with a military PCM (direct care), or enrolled to a civilian PCM, or using Standard/Extra for most of their care in the past year (purchased care) who respond 8 or above when asked to give a rating on a 0 to 10 scale (0 is bad, and 10 is good), for Health Care, Health Plan, Personal Doctor, or the Specialist they see most often. Rates are adjusted for age and health status.

- * Significantly different from Benchmark

Health Care Topics

Health Care Topics scores average together results for related questions. Each score is the percentage who “usually” or “always” got treatment they wanted. Asterisks show values significantly different from the NCBD benchmark ($p < .05$).

Figure 5 presents the composites “Getting needed care”. Scores are based on patients’ problems getting referrals and approvals and getting needed treatment.

“Getting care quickly”, shown in Figure 6 scores concern how long patients wait for an appointment or wait in the doctor’s office.

**Figure 7:
Doctors' Communication**

Scores in Figure 7, “Doctor’s communication” are based on whether the doctor spends enough time with patients, treats them respectfully and answers their questions.

**Figure 8:
Customer Service**

Figure 8 shows “Customer service” scores, which concern patients’ ability to get information about their health plan.

“Claims processing” scores in Figure 9 are based on the timeliness and correctness of plan’s claims handling.

Claims Processing**

Preventive Care

The preventive care table compares TRICARE users’ rates for diagnostic screening tests and smoking and tobacco use cessation with goals from Healthy People 2020, a government initiative to improve Americans’ health by preventing illness. A new metric for the non-smoking rate is used: current non-smokers.

Rates that are significantly different ($p < .05$) from the Healthy People 2020 goal are shown by red italics.

Preventive Care					
Type of Care	Qtr 3 FY 2012	Qtr 4 FY 2012	Qtr 1 FY 2013	Qtr 2 FY 2013	Healthy People 2020 Goal
Mammography (women > 40)					
Direct Care	82	85	90	83 (205)	81
Purchased Care	84	89	88	86 (146)	
Pap Smear (women > 18)					
Direct Care	90	88	90	91 (427)	93
Purchased Care	92	88	89	82 (304)	
Hypertension Screen (adults)					
Direct Care	88	89	90	87 (1030)	95
Purchased Care	94	94	93	90 (460)	
Prenatal Care (in 1st trimester)					
Direct Care	76	89	95	89 (48)	78
Purchased Care	98	97	71	97 (42)	
Percent Not Obese (adults)					
Direct Care	82	79	82	80 (1003)	69
Purchased Care	70	70	70	68 (447)	
Non-Smokers (adults)					
Direct Care	86	85	85	86 (995)	88
Purchased Care	86	88	89	87 (442)	
Counseled to Quit (adults)					
Direct Care	79	82	76	82 (167)	-
Purchased Care	87	80	90	81 (51)	

Numbers in red italics are significantly different from the Healthy People 2020 goal ($p < .05$).
